On pages 341 to 558 (MDC 8), for all diagnosis codes concerning a closed or open fracture the following changes should be made:

If the fracture is closed, the last digit of the code should be 0 (not 1);
If the fracture is open, the last digit of the code should be 1 (not 0).

On page 770, the following change should be made to the definition of DRG 627:

Replace "ANY COMBINATION OF 2 OR MORE DIFFERENT DIAGNOSES OF MAJOR PROBLEM" with "PRINCIPAL OR SECONDARY DIAGNOSES OF MAJOR PROBLEM".

On page 1024, the definition of DRG 465 is incomplete (the list of secondary diagnosis codes is empty):

The list of secondary diagnosis codes that should be found on this page appears below.

Appendices

The following text should be added at the beginning of appendix H:

APPENDIX H - NON-O.R. PROCEDURE / SECONDARY DIAGNOSIS COMBINATIONS

The presence of specific non-O.R. procedures used in conjunction with certain complications or comorbidities cause the non-major CCs to be considered major CCs. Appendix H lists the non-O.R. procedure / secondary diagnosis combinations that are considered major CCs except when used in conjunction with the principal diagnosis in the corresponding CC Exclusion List in Appendix E or the Major CC Exclusion List in Appendix J.

The following text should be added at the beginning of appendix I:

APPENDIX I - NON-TRAUMATIC NON-O.R. PROCEDURE / SDX COMBINATIONS

The presence of specific non-traumatic non-O.R. procedures used in conjunction with certain complications or comorbidities cause the non-major CCs to be considered major CCs. Appendix I lists the non-traumatic non-O.R. procedure / secondary diagnosis combinations that are considered major CCs except when used in conjunction with the principal diagnosis in the corresponding CC Exclusion List in Appendix E or the Major CC Exclusion List in Appendix J.
